BRAND CONSISTENCY

OUTSIDE SIGN

Use short, confident messages and clear logo placement. Match scale to viewing distance and keep the green, orange, and brown palette consistent across the exterior.

OUTSIDE SIGN

Make the Korean kitchen easy to recognise. Preserve the logo and allow generous margins so signage stays clear within a busy street or retail setting.

INSIDE WALL

Use food photography, practical menu information, and warm materials to create an inviting setting. Let expressive campaign graphics add energy without competing with essential information.

BRAND INTEGRITY

Keep the brand consistent from the first menu glance to the last takeaway bag. Use the same approved logo, colour values, and typography across print and digital work. Messages should reflect what guests can see and experience. Before releasing artwork, check readability, image quality, spacing, and the accuracy of practical information.

BRAND MOOD

SSAM SSAM is warm, energetic, and approachable. Deep Brown adds grounding, Leaf Green suggests freshness, and Hot Orange brings a confident accent. Food remains the focus. The mood should invite participation: choose, wrap, taste, and share. Balance playful statements with clear information so every guest can feel at ease.
